But Gelluk's abrupt fate had shaken him. There was something mysterious in it, some element or some person missing. Summoning the useful Hound to help him, Early had made a very thorough inquiry into what happened. Where Gelluk was, of course, was no mystery. Hound had tracked him straight to a scar in a hillside, and said he was buried deep under there. Early had no wish to exhume him. But the boy who had been with him, Hound could not track: could not say whether he was under that hill with Gelluk, or had got clean away. He had left no spell traces as the mage did, said Hound, and it had rained very hard all the night after, and when Hound thought he had found the boy's tracks, they were a woman's; and she was dead..Elehal. There were many such isles in the Archipelago, made barren and desolate by rival wizards' blights and curses; they were evil places to come to or even to pass, and Medra thought no more about this one, until that night. "So when the Windkey returned, we were nine again. But divided. For the Summoner said we must meet again and choose an Archmage. The king had had no place among us, he said. And "a woman on Gont", whoever she may be, has no place among the men on Roke. Eh? The Windkey, the Chanter, the Changer, the Hand, say he is right. And as King Lebannen is one returned from death, fulfilling that prophecy, they say so will the Archmage be one returned from death." That gave her pause. She stood silent. "It's the name the witch Rose of my village on Way gave me. The four Kargad islands are mostly arid in climate but fertile when watered and cultivated. The. Many of these had a hard time getting there, for the spells that hid the island were stronger than ever, making it seem only a cloud, or a reef among the breakers; and the Roke wind blew, which kept any ship from Thwil Bay unless there was a sorcerer aboard who knew how to turn that wind. Still they came, and as the years went on a larger house was needed for the school than any in Thwil Town. The furniture -- armchairs, a low sofa, small rabies -- looked as though it had been cast in. I said, Hama Gondun! And Kurremkarmerruk told them this in Hardic: "A woman on Gont." But when I came back to my own wits, I could not tell them what that meant. And so we parted with no Archmage chosen. Otter walked on a mile, brooding; then circled back, leading Licky to a hillock not far from the far end of the old workings. None of these languages serves for the making of spells. the installation of officials. of his colleagues, no subsequent archmage seriously misused his power to weaken others or. AT THE END OF THE fourth book of Earthsea, Tehanu, the story had arrived at what I felt to be now. Maybe it was to escape the hunt that Medra came to Pendor, a long way west of the Inmost Sea, or maybe some rumor among the women of the Hand on Hosk sent him there. Pendor was a rich island, then, before the dragon Yevaud despoiled it. Wherever Medra had gone until then, he had found the lands like Havnor or worse, sunk in warfare, raids, and piracy, the fields full of weeds, the towns full of thieves. Maybe he thought, at first, that on Pendor he had found Morred's Isle, for the city was beautiful and peaceful and the people prosperous. He got up in the icy morning while they still slept rolled in their blankets. He knew where the cattle were nearby, and went to them. The sickness was very familiar to him now. He felt it in his hands as a burning, and a queasiness if it was much advanced. Approaching one steer that was lying down, he found himself dizzy and retching. He came no closer, but said words that might ease the dying, and went on. Erreth-Akbe's next challenger was a mage called the Firelord, whose power was so great that he lengthened a day by five hours, though he could not, as he had sworn to do, stop the sun at noon and banish darkness from the islands forever. The Firelord took dragon form to fight Erreth-Akbe, but was defeated at last, at the cost of the forests and cities of Ilien, which he set afire as he fought. sorcerer, Alder had said. Though like any power they could be perverted to evil use in the service of ambition (as was the Terrenon Stone in Osskil), the Old Powers were inherently sacral and pre-ethical. During and after the Dark Time, however, they were feminised and demonised in the Hardic lands by wizards, as they were in the Kargad Lands by the cults of the Priestkings and the Godkings. So by the eighth century, in the Inner Lands of the Archipelago, only village women kept up rituals and offerings at the old sites. They were despised or abused for doing so. Wizards kept clear of such places. On Roke, itself the center of the Old Powers in all Earthsea, the profoundest manifestations of those powers-Roke Knoll and the Immanent Grove-were never spoken of as such. Only the Patterners, who lived all their lives in the Grove, served to link human arts and acts to the older sacredness of the earth, reminding the wizards and mages that their power was not theirs, but lent to them. awkward gestures that were part of them.
