under the bed..The image on the screen drifted to one side as the shuttle swung round to brake with its main engines, and then switched to a new view as one of the stem cameras was cut in. Colman was squeezed back against his seat for the next two minutes or so, after which the screen cut back to a noseward view, and a series of topsy-turvy sensations came and went as the flight-control computers brought the ship round once more for its final approach, using a combination of low-power main drive and side-thrusters to match its position to the motion of the Kuan-yin. After some minor corrections the shuttle was rotating with the Kuan-yin to give its occupants the feeling that they were lying on their backs, and nudging itself gently forward and upward to complete the maneuver. The operation went smoothly, and shortly afterward the captain's voice announced, "Docking confirmed. The boarding party is free to proceed..funneled down from three lanes to one..". "Seriously?" Leilani's eyes widened. Her hand paused with a forkful of pasta halfway between plate and think, What a sad little crippled girl she is, with her little twisted leg and her little gnarled hand and her. It was the right thing to do. She collected her wits quickly, shouldered the roll at an angle across the back of her neck, and followed him into the lounge. Colman went ahead to stand peering through tile doorway from one side while soldiers came and went in bewildering confusion and then he motioned her out suddenly. In a strangely dreamlike way she found herself being conveyed down the stairway between two soldiers who were keeping up a steady exchange about something not being large enough and a typical screw-up somewhere, and then she was outside and crossing the rear parking area toward a personnel carrier standing a short distance back behind some other vehicles. Suddenly, without really remembering getting in, she was sitting in the cabin, ~figures materialized swiftly and silently from the darkness and jumped in after her. "Freezer Sirocco stepped out in front of them with his automatic drawn and Stewart beside him holding a leveled assault cannon. Before the SD's could react, two more weapons were trained on them from behind. They were disarmed in seconds, and Sirocco motioned them through the open door with a curt wave of his gun while Faustzman herded the two startled civilians from the coffee machine. Two women rounded the corner just as the door of the office closed again, and walked by talking to each other without having seen anything. Moments later Sirocco left the office again with two privates. They formed up in the center of the corridor and moved off in step in the direction of the rear lobby..Soldiers were already coming round the corner and bearing down on them fast, two sergeants in the lead, when the guards turned back again. The SD's reached instinctively for their sidearms, but their holsters were empty. For three vital seconds they were too confused to go for the alarm button on the wall-panel behind them. Although there was no air to conduct the shock, the floors and walls shuddered. Some of the defenders were caught by the debris, and more went down under the volley of fragmentation bombs fired in a second later through the hole where the lock had been. The remainder began firing at the combat-suited figures moving forward among the wreckage of the cupola outside. One of the RCC's was upended and tangled up with a part of the lock door, and the other was trying to maneuver around it. "Red section, move to fallback positions," the captain yelled. "Covering..". Sirocco peered at the screen, checked the entries in the revised schedule that Stanislau had produced, and nodded. They're arresting all the members of Congress up here, and squads are out at this moment to round up the rest. I'm probably on the list too, so this will have to be quick. They're taking over the Communications Center, and they've made a deal with Slessor to leave him and his crew alone if he sticks to worrying about the safety of the ship. Murmurs of surprise came from the screen. In the living room, the Chironians were staring at Celia in amazement. Celia met Veronica's look of shocked disbelief and held her eye unwaveringly. Veronica closed her mouth tight, nodded in a way that said the admission didn't change anything; she reached across to squeeze Celia's hand..he himself is a total Forrest Gump, good-hearted but a Gump nonetheless. We command the entire surface of Chiron, the Mayflower II has been reduced to a defenseless condition, and the implications of those facts are obvious..". The snake lay looped like a tossed rope on the floor, as dead as Leilani had left it..no sign of the two silent men who wouldn't stoop to pick up five dollars..". "When we return, it will be a different story," Stern told his entourage on the Bridge as the module's main drives

fired and they felt it surge forward and away from the Mayflower II's nose. "But first, we have, to deal with our Chironian - . . . friends. What is the report on the Kuan-yin?" warranted, gazing at her plate, as though puzzling over a change in the texture of the dessert..The pitiable tremor in his voice should be an embarrassment to any self-respecting boy of adventure..Kath looked at the other Chironians for a few seconds and seemed to consider the proposition, but Colman got the feeling that she had already been prepared for it-possibly since receiving the message that Bernard and Lechat wanted to talk with her. Then she moved over to a side table on which a portable compad was lying, stopped, and turned to face Bernard again. "It isn't a matter for me to decide," she said. "But the people concerned are waiting to talk to you." Bernard and Lechat exchanged puzzled looks. Kath seemed to hesitate for a second, and then looked at Lechat. "I'm afraid we have been taking an unpardonable liberty with you. You see, this was not entirely unexpected. The people you wish to speak with have been monitoring our discussion. I hope you are not too offended." "Plights and pickles. Troubles. Some of us get 'em served one at a time on a little plate, and some of us.Sirocco shrugged. "I'm pretty sure it can't be Wellesley. He's tried to play it straight, it's all sweeping him way out of his depth. Anyhow, what would he have to gain? All he wants to do is to be put out to pasture; he's only got a few days left. Ramisson obviously wouldn't be involved in something like that, and the same goes for Lechat. But as for the rest, if you ask me, they're all crazy. It could be any of them or all of them. But that's who the Chironians are really after." "I keep a small stock reserved," Stern informed her. "It is from Earth-the Grande Champagne region of the Charante. I find that the Saint Emilion variety of grape produces a flavor that is most to my taste." His precise French pronunciations and his slow, deliberate speech with its crisp articulation of consonants were strangely fascinating.."Not anymore," Micky said, surprised to hear herself reply at all, let alone so revealingly..Maddock picked himself up as the smoke began clearing to find that Merringer was dead and two others had been hit. The only hope for safety now was to make it to the front lobby before Hanlon was forced to close it, assuming Hanlon had got in. "Go first with four men," "Well, try not to make it half the night this time, won't you." And to Pernak: "Take care, Jerry. Thanks for dropping by. Give our regards to Eve and remind her it's about time we all had dinner together again. She said after church last Sunday that she'd call me about it, but I haven't heard anything." "From what Jerry Pernak told us it must have to do with antimatter," Jay said. "The Chironians are into a whole new world of particle theory. That means they can produce lots of antimatter economically. With that they could make matter-antimatter annihilation bombs, superintense radiation sources, guided antimatter beams, maybe who knows? But it has to be something like that."
